

Moving on with your child

In June some of our families from early years took part in our 'moving on with your child' course to learn more about what happens when children move from nursery to reception and reception to year 1. The course was a week long and we had different exciting activities every day. During the five days parents got to know more about how to support their children's learning we had a day to make and play games that were taken home, we had a parents coffee morning and families had lunch together at early years and at our chestnut avenue site for children moving from reception to year 1. Parents also spent time on the computer which they really enjoyed and the week ended with a free family trip to 360 play centre in Milton Keynes where everyone had lots of fun and laughter!
